Workforce Solutions

Temporary Workforce - for those needs ranging from same day emergency replacements to long-term contingent staff, this solution is our most flexible and the cornerstone of our business.

Temporary-to-Hire - the perfect solution for those clients who are looking to expand their workforce and need a reliable partner who understands their hiring criteria and delivers qualified candidates to become part of their permanent workforce.

Direct Hire Placement - accelerating the process of hiring full time permanent staff by using Anchor as your partner for Recruitment Process Outsourcing (RPO).

Anchor Workforce Elite (AWE) - we have gathered a team of top notch administrative support professionals for deployment for Executive level assistance. These professionals must meet stringent screening and assessment criteria to become part of this exclusive group.

Payroll Processing Solutions - for those firms who need to bring on employees who have a specific expertise or industry experience, identified by you, the customer. This solution allows clients to tap into those resources without adding to existing staff headcount or bear the expenses associated with hiring full time employees.

Permanent Workforce - this hybrid solution marries the best of our temporary and RPO solutions. We conduct the search for candidates, presented the best available, hire them as salaried Anchor employees and deploy them as part of your workforce. This solution is ideal for large contracts that require diverse partnership.
